CALL FOR ARTISTS

LA COUNTY DEPARTMENT OF ARTS AND CULTURE SEEKS
AN ARTIST OR ARTIST TEAM FOR NEW PARKING STRUCTURE IN
MARINA DEL REY

DEADLINE TO APPLY: DECEMBER 5, 2023, 5:00PM PDT
BUDGET: $ 450,000
LOCATION: ADMIRALTY WAY AND MINDANAO WAY

PROJECT OVERVIEW

The Los Angeles County Department of Arts and Culture (Arts and Culture)'s Civic Art Division invites artists and artist teams residing or working within the Greater Los Angeles Area: Los Angeles County, Orange County, Ventura County, San Bernardino County, and Riverside County, to submit qualifications to design, fabricate and install an artwork on the façade of a new parking structure in Marina del Rey. The new parking structure will be located on the corner of Mindanao Way and Admiralty Way, at the entrance to Burton Chace Park.

The selected artist or artist team (Artist) will work with Arts and Culture, the architect, and other members of the design-build firm to develop their design.

This opportunity is open to artists of all experience levels. No prior experience in public art is required to apply. The Civic Art Division is committed to supporting emerging public artists and artists who are beginning their public art practice. The Civic Art Division will be providing emerging public artists with a public art mentor to assist the selected artist through the duration of the project.
CIVIC ART DIVISION

Arts and Culture’s Civic Art Division works with established and emerging artists to commission new artworks, community engagement activities, temporary art installations, and event-based programming for new and renovated County facilities. Completed projects and artworks are accessioned into the Los Angeles County Civic Art Collection consisting of over 600 historic and contemporary artworks from over 300 artists, including new Civic Art commissions, donations, and artwork purchases.

ARTIST MENTORSHIP AND PROJECT SUPPORT

The Civic Art Division is committed to supporting the inclusion of artists from diverse backgrounds, artistic practices, and communities in the County’s Civic Art Collection, as well as creating opportunities for underrepresented artists to gain hands-on experience navigating the public art field through various mentorship and professional development resources available.

For this project, a public art mentor will be available to emerging public artists to provide training, support, and project management guidance to the selected Artist. The mentor will help ensure steps of the public art process are understood, contractual requirements are met, and methods for the delivery of all project milestones are successful. The mentor will attend key meetings between the Artist and project stakeholders, including the Artist’s subcontractors to provide support throughout the project’s various phases, such as the artwork’s design development, fabrication, and installation. The mentor will be contracted and paid directly through Arts and Culture.

ARTWORK LOCATION

The civic art location is on the eastern end of the parking structure, on the parking structure façade that faces north, along Mindanao Way. The space measures 21'-8” x 144’.

The two-story building will contain three parking levels, 513 parking spaces, and EV charging stations on the ground floor. The building will be approximately 43 feet tall to the top of the solar panels that shade the third parking level and will have a landscaped setback of 20 feet from Mindanao Way to the main facade. The structure’s staircase towers and entry canopy will face the existing Mindanao Way sidewalk.

The structure will also include bike racks, bike lockers, bike rental spaces, and a bike share station in the northeast corner of the structure’s first floor. It will form a significant part of the site’s “multi-modal transportation hub” linking pedestrian and bike paths, bus links, and boating docks for visitors and residents.

The artwork must be constructed of permanent, non-fugitive materials that will not tend to degrade or fade over the life of the artwork (25 years). Materials must be non-corrosive such as stainless steel, aluminum or tile, and be able to withstand the extreme conditions of this location with exposure to ocean air, intense sun, and moisture.
HISTORY

Marina del Rey is an unincorporated neighborhood that includes North America’s largest man-made small-craft harbor. Prior to the arrival of European settlers, the area was a salt marsh that was utilized by the Tongva to fish and harvest shellfish using their boats known as te’aat’s.

In the early 1960s, Valaria M. Lincoln, the first female engineer with the Army Corps of Engineers’ Los Angeles office, designed the specifications for the harbor and channels of Marina del Rey. Despite her crucial contributions, she was not allowed to visit the construction site due to her gender. In 2015, Lincoln was honored in a County-led anniversary commemoration ceremony in Burton Chace Park where she is considered the ‘Mother of the Marina.’

Today, Los Angeles County owns the harbor and it is managed by the Department of Beaches and Harbors. The harbor and its surrounding area have become one of Los Angeles’ major attractions offering sailing lessons, paddle board and kayak rentals, dining cruises, and boat rentals among other amenities. Burton Chace Park, located directly at the harbor, also hosts a summer concert series, picnics, and other gatherings. The harbor was described in a 1997 Los Angeles Times editorial as "perhaps the County’s most valuable resource."

In 2022, Second District Supervisor Holly J. Mitchell and the Department of Beaches and Harbors, along with other County partners launched the Marina del Rey for All (MdR for All) initiative, to reimagine the future of the harbor as a more equitable, accessible and inclusive place for everyone. The County is conducting a community needs assessment and is in the process of re-envisioning what the waterfront can be and what it can offer, with the goal of ensuring that future development welcomes all County residents and visitors. There will be a special focus on youth programming, placemaking activities, and increased amenities for the community.
ARTWORK THEMES/GOALS

The Marina del Rey parking structure and artwork will contribute a significant visual impact, marking the entrance to the harbor and Burton Chace Park, and establishing the area as a distinct and welcoming place. Civic art project goals align with the County’s MdR for All initiative that seeks to ensure that the harbor is a more inclusive, equitable, and sustainable place for residents, businesses, and visitors. The parking structure will become a landmark for the area, helping establish a new perspective for the community, past, present, and future. Artwork themes may include the following:

- **Inclusivity.** The artwork will positively contribute to the MdR for All values of inclusivity, family, and community connectedness.
- **Pride of Place.** The artwork will elicit a feeling of pride, celebration, and welcome.
- **History.** The artwork may explore underrepresented histories and local knowledge.
- **Environmental Stewardship.** The artwork may explore environmental or ecological themes and respect for the local habitat, marine life, and ocean.
