LA General Medical Center
Restorative Care Village, Phase 5
1240 N. Mission Rd., Los Angeles 90033

LA GENERAL MEDICAL CENTER, RESTORATIVE CARE VILLAGE

La County Department Of Arts And Culture Seeks Artist for the Los Angeles General Medical Center Restorative Care Village, Phase 5

APPLICATION DEADLINE
Tuesday, July 8, 2025, 5pm PST

BUDGET
\$350,000

OVERVIEW

The Los Angeles County Department of Arts and Culture's Civic Art Division invites artists to submit qualifications for an artwork commission at Phase 5 of the Restorative Care Village (RCV5), located at the LA General Medical Center in Boyle Heights, Los Angeles. The artwork will be a large exterior mural made of digitally printed aluminum panels. This fabrication method allows artists who work in any two-dimensional medium to apply to this Call.

Los Angeles County continues to develop innovative Restorative Care Village (RCV) campuses that provide comprehensive support to individuals experiencing homelessness, with an emphasis on mental health and well-being. These RCVs employ a holistic model of care, addressing the complex challenges of substance abuse, mental health conditions, housing instability, job training, and medical co-morbidity. Civic artworks play a key role in shaping these environments that foster a sense of dignity, inclusion, and community.

The Civic Art Division commissions innovative and inclusive civic artworks that reflect the diverse communities of Los Angeles County. Through collaborations with emerging and established artists, the Division integrates permanent and temporary artworks into County facilities, engages local communities, and advances cultural equity. These efforts contribute to the Los Angeles County Civic Art Collection, which preserves and showcases over 600 historic and contemporary artworks by over 375 artists, enriching public spaces across the County.

PROJECT SITE/LOCATION

The site is located in Boyle Heights on the historic campus of Los Angeles General Medical Center. Phase 5 of LA General's Restorative Care Village will include a new four-story building for the LA County Mental Health Department, which will house a 128-bed Psychiatric Subacute Facility.

The civic artwork will be prominently located on the large façade of this building facing the heavily trafficked Mission Road, offering high visibility and the potential for connection with the surrounding communities.

The County of Los Angeles recognizes that we occupy land originally and still inhabited and cared for by the Tongva, Tataviam, Serrano, Kizh, and Chumash Peoples. We honor and pay respect to their elders and descendants — past, present, and emerging — as they continue their stewardship of these lands and waters. We acknowledge that settler colonization resulted in land seizure, disease, subjugation, slavery, relocation, broken promises, genocide, and multigenerational trauma. This acknowledgment demonstrates our responsibility and commitment to truth, healing, and reconciliation and to elevating the stories, culture, and community of the original inhabitants of Los Angeles County. We are grateful to have the opportunity to live and work on these ancestral lands. We are dedicated to growing and sustaining relationships with Native peoples and local tribal governments.

ELIGIBILITY

- This call is open to Artists or Artist Teams residing or working within Los Angeles County.
- If applying as a team, artists must identify the project lead or legal entity that will be the one entering into a contract for the project.
- Artists will not be eligible to apply if they have been previously commissioned for a civic art project with the LA County Department of Arts and Culture in the last five years, whose budget was equal to or exceeded \$350,00.

PROJECT BACKGROUND/COMMUNITIES

All artworks within the Restorative Care Village should contribute to making the campus a place where healing, art, and communities are interwoven. The artwork is envisioned as a enhancement that encourages connection, reflection, and emotional well-being for all who use the space. The Department of Mental Health has expressed a desire for the artwork to help foster a sense of visual and thematic continuity across the Restorative Care Village campus-linking the new facility and the existing buildings.

Located at the entrance to the Restorative Care Village, the artwork will serve as a welcoming landmark for the campus, including LA General Medical Center. While the artwork should resonate with the RCV consumers, visitors, and staff, its prominent position on Mission Road makes it especially important as a point of connection with the surrounding communities. As such, the work should be inclusive, accessible, and reflective of the local context.

ARTWORK THEMES/GOALS

In support of placemaking and placekeeping, the artwork aims to reflect the following values, themes, and cultural connections as articulated by the LA General Co-Design Committee, which represents the communities at LA General:

- **Values and Keywords:** Inclusivity, social and racial justice, human rights, equity, restorative care, community wellness, healing, environment/nature, and a welcoming atmosphere.
- **Thematic Priorities:** Hope, healing, health, cultural and historical connection (including past, present, and future ties to the historic General Hospital and campus), personal growth, and the honoring of individuals and everyday people.
- **Cultural Connections:** Compassion, reflect local communities, including family, indigenous and immigrant roots, and life experiences of residents and patients. The Co-Design Committee prefers narrative art that tells a story over abstract representation.

Some places of inspiration include: East Los Angeles Library, Ramona Gardens, Plaza de la Raza, murals on Cesar Chavez Ave and Whittier Blvd, Mariachi Plaza, Salazar Park, Garfield and McKinzie Charter High Schools, Self Help Graphics, El Mercado, Olvera Street, Chinatown, Little Tokyo.

Please note that in order to create a **welcoming and calming environment** for the Restorative Care Village, the artwork will need to avoid the following elements, which might be considered triggering for Restorative Care Village consumers:

- A prevalence of the colors red or black
- Depictions of death, fire, weapons, pointy objects
- Depictions of people where the eyes can be seen (and could "follow" the viewer) or where the depicted people might seem overwhelming when viewed from below
- Dizzying or jagged patterns
