

Civic Art Employment Impact

revised June 2021

The purpose of this document is to track how funds for Civic Art projects impact employment beyond artists who are directly hired. Please fill in the information as fully and accurately as you can, and submit it as part of your closeout documentation. To help you make determinations, each job title links to a detailed description of that job. If you have any questions, contact your project manager at the LA County Dept of Arts and Culture. Thank you.

Instructions:

This form is to be completed by the lead artist hired on a Civic Art project. One form should be completed for each project.

All individuals who were paid with Civic Art funds should be counted.

For each job title listed below, please mark the number of individuals hired to work on this project. This includes people hired full-time, part-time, or as contractors. It should include people hired directly by you or hired by a subcontractor.

Job titles may vary. Select the job titles closest to the ones used on this job. If no appropriate job title is listed, type or write in the actual job title in the relevant category, and number of people in that position.

Artist completing the form: _____

Project Manager: _____

Contract number: _____

Date: _____
